NOTICE OF INTENT TO ADOPT **NEGATIVE DECLARATION**

This form is provided as a notification of an intent to adopt a Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Places of Assembly Study Issue by The City of Sunnyvale.

PROJECT DESCRIPTION AND LOCATION (APN):

City of Sunnyvale Study Issue: Places of Assembly and Recreation in Commercial and Industrial Zoning Districts. The study will consider the appropriateness of these uses within Commercial and Industrial Zoning Districts. Amendments of Title 19 (Zoning) may be adopted as part of the study.

WHERE TO VIEW THIS DOCUMENT:

The Negative Declaration, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue. Sunnvvale.

This Negative Declaration may be protested in writing by any person prior to 5:00 p.m. on Tuesday, March 7,2006. Protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

HEARING INFORMATION:

A public hearing on the project is scheduled for:

Tuesday, March 7, 2006 at 8:00 p.m. in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

TOXIC SITE INFORMATION:

(No) listed toxic sites are present at the project location.

Circulated On February 1, 2006

Andrew Miner, Principal Planner

NEGATIVE DECLARATION

This **Negative Declaration** has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Places of Assembly Study Issue by The City of Sunnyvale.

PROJECT DESCRIPTION AND LOCATION (APN):

City of Sunnyvale Study Issue: Places of Assembly and Recreation in Commercial and Industrial Zoning Districts. The study will consider the appropriateness of these uses within Commercial and Industrial Zoning Districts. Amendments of Title 19 (Zoning) may be adopted as part of the study.

FINDINGS:

The Director of Community Development of the City of Sunnyvale, California, hereby determines that an environmental impact report is not required. There are sufficient environmental controls incorporated into the zoning regulations to ensure no significant detrimental effect.

The above determination is based upon the initial study conducted in this matter; information provided by the applicant in an "Application for Environmental Finding" that the above determination is based on the fact that the use is in keeping with not in conflict with the adopted General Plan, The Zoning Ordinance and the Subdivision Ordinance. Sufficient environmental controls are incorporated in the Zoning and Subdivision regulations as to ensure no significant detrimental effect.

This **Negative Declaration** may be protested in writing by any person prior to 5:00 p.m. on Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

De Minimis Impact Finding

E-13002

PROJECT TITLE/LOCATION (INCLUDE COUNTY):

The Study Issue is located in The City of Sunnyvale, County of Santa Clara.

PROJECT DESCRIPTION:

City of Sunnyvale Study Issue: Places of Assembly and Recreation in Commercial and Industrial Zoning Districts. The study will consider the appropriateness of these uses within Commercial and Industrial Zoning Districts. Amendments of Title 19 (Zoning) may be adopted as part of the study.

FINDINGS OF EXEMPTION:

- 1. This project is in an urban setting.
- 2. There is no alteration of land or effect on fish or wildlife.

CERTIFICATION:

I hereby certify that the public agency has made the above finding and that the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

Andrew Miner

Project Number: 2005-0027 Project Address: Citywide Applicant: City Of Sunnyvale

Project Title	Places of Assembly & Recreational Uses in Industrial & Commercial Zoning Districts
Lead Agency Name and Address	City of Sunnyvale PO Box 3707 Sunnyvale, CA 94088-3707
Contact Person	Ryan M. Kuchenig
Phone Number	408-730-7431
Project Location	Citywide
Project Sponsor's Name	City of Sunnyvale
Address	456 W. Olive Ave Sunnyvale, CA 94088
Zoning	Citywide
General Plan	Citywide
Other Public Agencies whose approval is required	None

Description of the Project: 2005-0027 – The proposed project is for the City to complete a study which may result in an ordinance amendment to the City of Sunnyvale Municipal Code, Title 19. The study issue will review whether the current Zoning Ordinance provides sufficient Zoning tools and review processes for these Places of Assembly and Recreational uses in Commercial and Industrial Zoning Districts. The project does not propose any physical changes or construction to the environment.

Surrounding Uses and Setting:

The study identifies these uses in Commercial and Industrial Zoning Districts; however, these uses are located throughout all zoning districts in Sunnyvale.

EVALUATION OF ENVIRONMENTAL IMPACTS

- 1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 3. All answers must take account of the whole action involved, including off-site as well as onsite, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 4. Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 5. "Negative Declaration: Potentially Significant Unless Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analysis," may be cross-referenced).
- 6. Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:
- 7. Earlier Analysis Used. Identify and state where they are available for review.
- 8. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
- 9. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project
- 10. Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a

E-13002

Project Address: Citywide
Applicant: City Of Sunnyvale

previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages. Hazards & Hazardous Public Services Aesthetics Materials Agricultural Resources Hydrology/Water Recreation Quality Air Quality Land Use/Planning Transportation/Traffic Biological Resources Utilities/Service Mineral Resources Systems Cultural Resources Noise Mandatory Findings of Significance Geology/Soils Population/Housing **DETERMINATION:** (To be completed by the Lead Agency) On the basis of this initial evaluation: I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE X DECLARATION will be prepared. I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required. I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the

	or by the California Department of Fish and Game or U. S. Fish and Wildlife Service?				·	
	b. Have a substantially adverse impact on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations, or by the California Department of Fish and Game or U.S Wildlife Service?				\boxtimes	111.
	c. Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?				\boxtimes	111
ĺ	d. Interfere substantially with the movement of any resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites?					111
	e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?					41
1	f. Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, other approved local, regional, or state habitat conservation plan?					17
4.	CULTURAL RESOURCES. Would the project:					
	Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?				\boxtimes	111
	b. Cause a substantial adverse change in the significance of an archaeological resources pursuant to Section 15064.5				\boxtimes	111
(c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?					111
. (d. Disturb any human remains, including those interred outside of formal cemeteries?				\boxtimes	111
	LAND USE AND PLANNING. Would the project:					

E-13002

		-,		T	·	
		Potentially Significant Impact	Less than Sig. With Mitigation	Less Than Significant	No Impact	Source
	Physically divide an established community?					111
	b. Conflict with an applicable land use plan, policy or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?					111
	Conflict with any applicable habitat conservation plan or natural communities conservation plan?					17
6.	MINERAL RESOURCES. Would the project:					
	Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				\boxtimes	19
	b. Result in the loss of availability of a locally- important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?					19
7.	NOISE. Would the project result in:					
	a. Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?					19
	 Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels? 					19
	c. A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?					16
	d. A substantially temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?					16
8.	POPULATION AND HOUSING. Would the project:					
	a. Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?					111

E-13002.

Discussion:

- 9 a. Public Services The result of the study may provide new requirements or restrictions of uses that serve the public in certain areas of the city. New facilities utilized for schools, quasi public, and other recreational uses may be required to locate in nonindustrial or areas considered less sensitive of the city. Additionally, new ordinances may impose new application requirements for these uses in certain areas of the city.
- 10 b. Mandatory Findings of Significance The result of the study will include modifications to the current Zoning Ordinance that may limit new Places of Assembly and Recreational Uses in certain locations within the City. Places of Assembly include meeting places for cultural, religious and social organizations. The project itself will not cause new construction for these uses.
- 13 a. Transportation and Traffic The result of this study may be to encourage or limit certain uses within specific areas of the city. Existing ordinances and site specific issues related parking and traffic flow within neighborhoods will still be evaluated on a case by case basis.
- 15 a. Recreation New ordinances modifications may result in different permitting procedures for recreational uses within the city. As a result, these uses may be limited near uses deemed as incompatible. The study may also give improved guidance as to more appropriate locations for these uses. Recreational uses in areas considered
